We, on behalf of ENCOD, are of the opinion that the WHO should initiate a historical Critical Review on Coca, just as it has happened with cannabis.

At this point we sincerely thank the initiators of the work at the WHO.

Let's have a chat together over snacks and drinks, to exchange ideas about CND and, most importantly, to talk about Coca.

At least, we would be very pleased to welcome you to celebrate **ENCOD's 30th birthday.**

We kindly ask you to RSVP to gaby@encod.org by March 10th (Limited attendance)

With friendly greetings
ENCOD and friends
