

WORLD 2020 DRUG REPORT

CIVIL SOCIETY PERSPECTIVE

PRESENTATION BY:

GEORGE OCHIENG ODALO

EXECUTIVE DIRECTOR

SLUM CHILD FOUNDATION

WWW.SLUMCHILDFOUNDATION.NET

WHO WE ARE

Slum Child Foundation (SCF) is a registered NGO with a special Consultative status to the Economic and Social Council of the United Nations.

Started in 2008 as a Community Based Organization that works with children, women and youth in the Informal Settlement of Korogocho in Nairobi Kenya.

We address issues related to Poverty Eradication, Health Promotion practice, Education Support, Life skills, Micro Finance and substance use Prevention

IMPORTANCE OF WDR

- It help us know the areas in the field of Prevention, Treatment and Harm reduction that we can upscale and ensure they promote Evidence based intervention
- It help us get the required data for our work, that will shape the way we work at the grassroots level and the connection between us and the donors
- It also help us know the emerging trend in the field of Prevention, Treatment and Harm reduction so that we can know how to develop approaches and interventions that will address the emerging trend

How we will use it

- We are looking forward to disseminate the data through all available avenues and platforms so that we ensure it reaches the intended people at the lowest part of the society who are greatly affected by drugs .
- We will also ensure that the society is able to share the right information to the lay man in the society in order to help them understand how drugs are influencing their lifestyle and what can be done to ensure that are safe from the harm associated with it.

Challenges and Gaps

- It is not easy to do achieve the above mention item, it calls for commitment from both the state parties and CSO's in terms of resources to support us to it effectively
- Inadequate data in terms of collection, Interpretation and Dissemination in the field of Prevention and Treatment
- Inadequate Implementation of the treaties and convention by state parties in their countries, this makes it hard for us to achieve the full goal to safe our societies from the harm associated with drug use
