

The Two Opioid Crises

Heloisa Broggiato, VNGOC

International Association for Hospice and Palliative Care

The Crisis of Access > 70%
of the world
Measures of suffering have
been absent until now!

Retrieved from INCB Supplement 2018,
Lancet Commission on Pain & Palliative Care, 2018

The Crisis of Excess

FENTANYL AND OTHER SYNTHETIC OPIOIDS DRUG OVERDOSE DEATHS

RECENT TRENDS

In 2016, synthetic opioids (primarily illegal fentanyl) passed prescription opioids as the most common drugs involved in overdose deaths in the United States.

In 2016, synthetic opioids were involved in nearly **50%** (19,413) of opioid-related deaths, up from **14%** (3,007) in 2010.

Government - provided oral morphine for palliative care in Uganda and Kerala. No diversion or misuse!

THERE ARE *TWO* OPIOID CRISES
Both must be solved for govts to achieve SDGs 3.5 and
3.8

Thank you
for your
attention!
