MARCH 18, 2024

AT 9:00hs

Room - M0E05 | VIC

HUMANITARIAN PRACTICES AND ALIGNMENT WITH THE ROME CONSENSUS 2.0 IN DRUG POLICIES:

PROGRESS FROM A GLOBAL POLICY REVIEW

Join our discussion on advancing humanitarian practices and learn about our Global Review on national drug policies. This event is your opportunity to explore critical questions on promoting ethical and humanitarian approaches in substance abuse treatment worldwide, including Harm Reduction, with accessible Opioids Substitution Therapy, Alternatives to Incarceration, pre-arrest deflection, continuum of care, and voluntary treatment programs.

The Rome Consensus 2.0 initiative unites Civil Society Organizations, Community Based Organisations, health and social workers, human rights activists, community leaders, experts, the Red Cross and Red Crescent Societies, and public authorities globally. Together, we will discuss implementing humanitarian practices in the context of health, criminal justice and community responses to adiccions.

Be a part of this transformative conversation. Your contributions can help steer global drug policy towards a more ethical and human approach. Join us in paving the way for positive change.
